## Works and Goods for Rural Water Supply and Wastewater Treatment Programme Ajara (Lot 1B)

Tender Notice KfW

Country: Georgia  
Submission Deadline: 08.05.2024; 12.00 local Georgian time (GMZ+4hr)  
Financing: KfW Development Bank  
Reference Number: BMZ 201366921  
ICB Number: 511 004  
Tender Procedure: International Competitive Bidding (ICB)  
Subject: Procurement of Supplies and Works for the Rural Water Supply and Wastewater Programme in Semi-Urban Areas of the Municipalities of Khulo, Shuakhevi, Keda, Khelvachauri and Kobuleti (Lots 1B - Shuakhevi, Keda and Khelvachauri).

Requested Service:

Procurement of Supplies and Works for Rural Water Supply and Wastewater Treatment Programme Ajara, for municipalities of **Shukahevi, Khelvachauri** and **Keda**.

Works and services to be provided include:

- The rehabilitation and/or reconstruction and extension of the centralized water supply infrastructure including water production facilities (river water intakes and/or spring tapping), water transmission mains, water treatment facilities, reservoirs, distribution network and house connections;
- The reconstruction of the existing centralized sewerage system including house connections, sewer pipelines and manholes, wastewater treatment plants and discharge of treated effluents into the receiving waters (Shukahevi and Keda);
- The construction of on-site sanitation facilities consisting in either septic tanks with appropriate infiltration systems where possible or small-scale constructed wetlands, including the preliminary assessment of underground conditions and site characteristics to identify the most appropriate technical solution (Khelvachauri);
- The construction of an administration, operation and maintenance building in each of the municipalities.

The project area is predominantly mountainous, with cold winters and with a low population density, involving particular design and construction works challenges.

The Bidding Documents differ from the KfW Standard Procurement Documents with regard to the evaluation of Technical Suitability. The evaluation of Technical Suitability is part of the evaluation of Qualification.
